

MASTER PLAN

AREA F
-Removal of stairs at Dundas St.
-New planted slope
-New garden beds
-Line Painting

AREA E
-Winding path
-Armour stone, chalk boards, picnic tables, weather station
-Pergola, stage, seating logs

AREA A
-Armour stone, picnic tables
-Concrete storage bunkers

AREA B and AREA E
-Field Repair
-Tree Planting
-TDSB Funded Programs

AREA D
New Play Structure
TDSB Funded

AREA C
-New 1.8 m Fence
TDSB Funded

- Zones:**
- 1 Sports field upgrades:** Repair turf and drainage throughout. A lockable storage shed provides secure space for storing sports equipment and loose parts for play.
 - 2 Improved entry:** Reconfigured entry point at Denison St. includes a retaining wall, guard rail and gate that provides a generous bike parking area and ample room for morning line ups.
 - 3 Fence and storage:** New 6' high fence and gate provides access control at Alexandra Park.
 - 4 Teaching, performance and social spaces:** Picnic tables, logs on grade, armour stones, seating circle, and a stage and pergola provide formal and informal teaching, socialization and performance opportunities. A new accessible path through the treed area connects picnic tables and new seating areas with a meandering pathway.
 - 5 Play structure:** New climbing structure provides a challenging course for various levels of difficulty.
 - 6 Pollinator garden:** The new fence configuration allows the pollinator garden to be accessed from the school yard and expands across the closed staircase. Armour stone blocks to be used for seating to rest and during classes, can be used as work tables.
